PROFILE SUMMARY

Experienced and results-oriented Computer Science student with a proven track record in web development and programming. Focused on creating responsive, user-friendly applications with strong problem-solving skills and a passion for continuous learning. Hold certifications in Responsive Web Design and JavaScript Algorithms and Data Structures, with experience in developing modern web applications.

EDUCATION

Bachelor of Computer Science

Expected July 2026

Lord Buddha Education Foundation (LBEF)

Relevant Coursework: Database Management, Web Development, App Development, Programming Fundamentals, Data Structures

Secondary School (+2)

GPA: 3.6

Capital College and Research Center (CCRC)

TECHNICAL SKILLS

Programming Languages & Technologies:

HTML/CSS, JavaScript, C Programming, MySQL

Soft Skills:

Problem Solving, Self-Learning, Time Management

Tools:

Canva, Visual Studio Code, Scandium

Networking & Cisco:

Cisco Packet Tracer, Network Configuration, Routing & Switching, VLAN Configuration, Network Security

LANGUAGES

Nepali (Native), English, Hindi

CERTIFICATIONS

Responsive Web Design

freeCodeCamp • Completed: February 2024

JavaScript Algorithms and Data Structures

freeCodeCamp • Completed: March 2024

Introduction to Software Testing

Udemy • Completed: March 2024

PROJECT EXPERIENCE

Personal Portfolio Website	2024
• Developed a modern, responsive portfolio website using HTML, CSS, and JavaScript • Implemented project showcase, skills section, and contact form with smooth animations • Designed clean, user-friendly interface to highlight professional experience and projects	
Responsive Fitness Website	2024
• Designed and developed a responsive fitness website using HTML, CSS, and JavaScript • Ensured seamless user experience across all devices and screen sizes • Created comprehensive showcase of fitness programs and services	
Todo List Application	2024
• Developed an interactive todo list application using HTML, CSS, and JavaScript • Implemented CRUD operations (Create, Read, Update, Delete) for task management • Added features like task completion tracking, local storage persistence, and responsive design
